about what OAPIA is doing for the Census! It is			
important for every District resident to participate in the			
2010 Census. Taken every 10 years, the Census counts			
everyone residing in the District of Columbia and			
throughout the nation. This includes people of all ages,			
races, ethnic groups, both citizens and non-citizens. The			
Census affects the allocation of billions of dollars in			
government funding as well as political representation. It is			
in our hands to ensure the District has a complete an			
accurate 2010 Census.			
The 2010 Census is easy, safe, and important. The Census			
questionnaire asks only a few questions and only takes a			
few minutes to complete. The Census Bureau does not			
release or share information that identifies individual			
respondents. The Census does not ask for one's legal			

status or criminal history. The 2010 Census is safe and confidential.			
DC Mayor's Community Service Awards- The Commission on Asian and Pacific Islander Affairs of the District of Columbia seeks your help. As May is Asian and Pacific Islander American Heritage Month, we would like to recognize those unsung heroes who have demonstrated extraordinary dedication to serving Washington DC's API community.  We invite you to nominate one individual or one organization who makes extraordinary contributions to the API community. This contribution can be expressed through a variety of ways: volunteering, promoting awareness of API issues, or organizing projects that strive for the advancement of District APIs. While the organizations or individuals need not live in DC, their work must focus on the District's API community.  The community leaders and organization chosen will be awarded the Community Service Award by Mayor Adrian M. Fenty at the Asian and Pacific Islander American Heritage Month Celebration to be held in May.
